

File Design

Final Year Project — Activate Academy Database

01. users

Table Name: users

File Name: users

File Number: 01

Primary Key: userID

Foreign Keys: None

File Size: 596 Bytes

Field Name	Data Type	Size	Description
userID	Number	11	Unique identifier automatically generated for each user account
username	Text	60	Login username; must be unique across all users
password	Text	255	Password hashed with PHP password_hash() (bcrypt)
full_name	Text	120	Full display name of the user
email	Text	120	Email address (optional)
phone	Text	30	Contact phone number (optional)
role	Selection List	-	User role: admin, manager, director, lecturer, receptionist, student, or parent — determines which dashboard is shown
status	Selection List	-	Account status: active or inactive (defaults to active)
created_at	Date & Time	-	Timestamp automatically set when the record is created

02. subject

Table Name: subject

File Name: subject

File Number: 02

Primary Key: subjectID

Foreign Keys: None

File Size: 223 Bytes

Field Name	Data Type	Size	Description
subjectID	Number	11	Unique identifier automatically generated for each subject
code	Text	30	Subject code; must be unique (e.g. MATH-101)
name	Text	120	Subject name (e.g. Mathematics)
level	Text	50	Subject level (e.g. O/L, A/L, Foundation)
fee	Decimal Number	10,2	Monthly subject fee in LKR (defaults to 0)
description	Text	Large	Description of the subject
created at	Date & Time	-	Timestamp automatically set when the record is created

03. batch

Table Name: batch

File Name: batch

File Number: 03

Primary Key: batchID

Foreign Keys: subject_id, lecturer_id

File Size: 344 Bytes

Field Name	Data Type	Size	Description
batchID	Number	11	Unique identifier automatically generated for each batch
batch_name	Text	120	Name of the batch/class
subject_id	Number	11	References subject.subjectID
lecturer_id	Number	11	References lecturer.lecturerID
schedule	Text	120	Class schedule (e.g. Sat 9:00 AM - 12:00 PM)
room	Text	60	Room or lab assigned to the batch
capacity	Number	11	Maximum number of students (defaults to 30)
status	Selection List	-	Batch status: upcoming, active, or completed (defaults to active)
start_date	Date	-	Date the batch starts
created_at	Date & Time	-	Timestamp automatically set when the record is created

04. enrollments

Table Name: enrollments

File Name: enrollments

File Number: 04

Primary Key: enrollmentID

Foreign Keys: student_id, batch_id

File Size: 33 Bytes

Field Name	Data Type	Size	Description
enrollmentID	Number	11	Unique identifier automatically generated for each enrollment
student_id	Number	11	References student.studentID
batch_id	Number	11	References batch.batchID
enroll_date	Date	-	Date the student enrolled in the batch
status	Selection List	-	Enrollment status: active, dropped, or completed (defaults to active)
created_at	Date & Time	-	Timestamp automatically set when the record is created

05. attendance

Table Name: attendance

File Name: attendance

File Number: 05

Primary Key: attendanceID

Foreign Keys: student_id, batch_id

File Size: 44 Bytes

Field Name	Data Type	Size	Description
attendanceID	Number	11	Unique identifier automatically generated for each attendance record
student_id	Number	11	References student.studentID
batch_id	Number	11	References batch.batchID
attend_date	Date	-	Date of the class the attendance was taken for
status	Selection List	-	Attendance status: present, absent, or late (defaults to present)
marked_by	Number	11	userID of the lecturer who marked attendance. Not enforced as a foreign key in the database — flagged for business clarification on whether a formal constraint is required.
created_at	Date & Time	-	Timestamp automatically set when the record is created

06. result

Table Name: result

File Name: result

File Number: 06

Primary Key: resultID

Foreign Keys: student_id, batch_id

File Size: 191 Bytes

Field Name	Data Type	Size	Description
resultID	Number	11	Unique identifier automatically generated for each result
student_id	Number	11	References student.studentID
batch_id	Number	11	References batch.batchID
exam_name	Text	120	Name of the exam (e.g. Mid-Term Test 1)
exam_date	Date	-	Date the exam was held
marks	Number	11	Marks obtained (defaults to 0)
total_marks	Number	11	Total marks available (defaults to 100)
grade	Text	5	Grade awarded (e.g. A+, B, C-)
comments	Text	Large	Lecturer's remarks on the result
uploaded_by	Number	11	userID of the lecturer who uploaded the result. Not enforced as a foreign key in the database — flagged for business clarification on whether a formal constraint is required.
created_at	Date & Time	-	Timestamp automatically set when the record is created

07. payment

Table Name: payment

File Name: payment

File Number: 07

Primary Key: paymentID

Foreign Keys: student_id, batch_id, approved_by_receptionist_id

File Size: 378 Bytes

Field Name	Data Type	Size	Description
paymentID	Number	11	Unique identifier automatically generated for each payment
student_id	Number	11	References student.studentID
batch_id	Number	11	References batch.batchID
amount	Decimal Number	10,2	Amount paid
pay_month	Text	7	Month the payment covers, format YYYY-MM
receipt_no	Text	60	Receipt number
receipt_file	Text	255	File name of the uploaded receipt
pay_date	Date	-	Date the payment was made
status	Selection List	-	Payment status: pending, approved, or rejected (defaults to pending)
approved_by_receptionist_id	Number	11	References users.userID — staff member (admin, manager, or receptionist) who approved or rejected the payment; NULL while status is pending
created_at	Date & Time	-	Timestamp automatically set when the record is created

08. announcement

Table Name: announcement

File Name: announcement

File Number: 08

Primary Key: announcementID

Foreign Keys: posted_by

File Size: 222 Bytes

Field Name	Data Type	Size	Description
announcementID	Number	11	Unique identifier automatically generated for each announcement
title	Text	200	Announcement title
message	Text	Large	Announcement content
audience	Selection List	-	Target audience: all, students, parents, or staff (defaults to all)
post_date	Date	-	Date the announcement was posted
posted_by	Number	11	References users.userID — user who wrote the announcement
created_at	Date & Time	-	Timestamp automatically set when the record is created

09. enquiries

Table Name: enquiries

File Name: enquiries

File Number: 09

Primary Key: enquiryID

Foreign Keys: None

File Size: 401 Bytes

Field Name	Data Type	Size	Description
enquiryID	Number	11	Unique identifier automatically generated for each enquiry
name	Text	120	Name of the person making the enquiry
phone	Text	30	Contact number
email	Text	120	Email address (optional)
interest	Text	120	Subject or programme the enquirer is interested in
notes	Text	Large	Additional notes recorded by staff
status	Selection List	-	Enquiry status: pending, contacted, enrolled, or dropped (defaults to pending)
created_at	Date & Time	-	Timestamp automatically set when the record is created

10. feedback

Table Name: feedback

File Name: feedback

File Number: 10

Primary Key: feedbackID

Foreign Keys: None

File Size: 432 Bytes

Field Name	Data Type	Size	Description
feedbackID	Number	11	Unique identifier automatically generated for each feedback entry
name	Text	120	Name of the person giving feedback
role	Text	50	Role of the person (e.g. Student, Parent) — free text, no login required
subject	Text	120	Subject the feedback relates to
email	Text	120	Email address (optional — this is a public, login-free form)
rating	Number	11	Rating from 1 to 5 (defaults to 5)
comments	Text	Large	Feedback comments
recommend	Selection List	-	Whether the person would recommend the institute: yes, maybe, or no (defaults to yes)
created_at	Date & Time	-	Timestamp automatically set when the record is created

11. performance_points

Table Name: performance_points

File Name: performance_points

File Number: 11

Primary Key: performancePointID

Foreign Keys: student_id, awarded_by

File Size: 310 Bytes

Field Name	Data Type	Size	Description
performancePointID	Number	11	Unique identifier automatically generated for each points record
student_id	Number	11	References student.studentID
awarded_by	Number	11	References lecturer.lecturerID — lecturer who awarded the points
batch_id	Number	11	Batch the points relate to (optional; not enforced as a foreign key)
points	Number	11	Number of points awarded (defaults to 0)
reason	Text	255	Reason the points were awarded
award_date	Date	-	Date the points were awarded
created_at	Date & Time	-	Timestamp automatically set when the record is created

12. parent_student

Table Name: parent_student

File Name: parent_student

File Number: 12

Primary Key: parentStudentID

Foreign Keys: parent_id, student_id

File Size: 33 Bytes

Field Name	Data Type	Size	Description
parentStudentID	Number	11	Unique identifier automatically generated for each parent-student link
parent_id	Number	11	References parent.parentID
student_id	Number	11	References student.studentID
created_at	Date & Time	-	Timestamp automatically set when the record is created

13. class_sessions

Table Name: class_sessions

File Name: class_sessions

File Number: 13

Primary Key: classSessionID

Foreign Keys: lecturer_id, batch_id

File Size: 288 Bytes

Field Name	Data Type	Size	Description
classSessionID	Number	11	Unique identifier automatically generated for each class session
lecturer_id	Number	11	References lecturer.lecturerID
batch_id	Number	11	References batch.batchID
title	Text	255	Title of the class session
link_url	Text	Large	Online meeting link/URL for the class
class_date	Date	-	Scheduled date of the class
created_at	Date & Time	-	Timestamp automatically set when the record is created

14. study_materials

Table Name: study_materials

File Name: study_materials

File Number: 14

Primary Key: studyMaterialID

Foreign Keys: batch_id, uploaded_by_lecturer_id

File Size: 1,043 Bytes

Field Name	Data Type	Size	Description
studyMaterialID	Number	11	Unique identifier automatically generated for each study material
batch_id	Number	11	References batch.batchID
title	Text	255	Title of the study material
subject	Text	255	Related subject name
description	Text	Large	Description of the material
file_path	Text	500	Path/name of the uploaded file
uploaded_by_lecturer_id	Number	11	References users.userID — lecturer who uploaded the material (replaces a legacy free-text uploader-name column)
created_at	Date & Time	-	Timestamp automatically set when the record is created

15. admin

Table Name: admin

File Name: admin

File Number: 15

Primary Key: adminID

Foreign Keys: adminID (references users.userID)

File Size: 71 Bytes

Field Name	Data Type	Size	Description
adminID	Number	11	Unique identifier; also a foreign key referencing users.userID (1:1 subtype of users)
access_level	Text	60	Admin's access/permission level

16. lecturer

Table Name: lecturer

File Name: lecturer

File Number: 16

Primary Key: lecturerID

Foreign Keys: lecturerID (references users.userID)

File Size: 386 Bytes

Field Name	Data Type	Size	Description
lecturerID	Number	11	Unique identifier; also a foreign key referencing users.userID (1:1 subtype of users)
qualification	Text	255	Lecturer's academic qualification(s)
specialization	Text	120	Lecturer's subject area of specialization

17. lecturer_subject

Table Name: lecturer_subject

File Name: lecturer_subject

File Number: 17

Primary Key: Composite (lecturer_id, subject_id) — no surrogate ID column

Foreign Keys: lecturer_id (references users.userID), subject_id (references subject.subjectID)

File Size: 22 Bytes

Field Name	Data Type	Size	Description
lecturer_id	Number	11	References users.userID — part of the composite primary key
subject_id	Number	11	References subject.subjectID — part of the composite primary key; subject the lecturer is qualified to teach
created_at	Date & Time	-	Timestamp automatically set when the record is created

18. manager

Table Name: manager

File Name: manager

File Number: 18

Primary Key: managerID

Foreign Keys: managerID (references users.userID)

File Size: 131 Bytes

Field Name	Data Type	Size	Description
managerID	Number	11	Unique identifier; also a foreign key referencing users.userID (1:1 subtype of users)
department	Text	120	Department the manager oversees

19. parent

Table Name: parent

File Name: parent

File Number: 19

Primary Key: parentID

Foreign Keys: parentID (references users.userID)

File Size: 11 Bytes

Field Name	Data Type	Size	Description
parentID	Number	11	Unique identifier; also a foreign key referencing users.userID (1:1 subtype of users)

20. receptionist

Table Name: receptionist

File Name: receptionist

File Number: 20

Primary Key: receptionistID

Foreign Keys: receptionistID (references users.userID)

File Size: 11 Bytes

Field Name	Data Type	Size	Description
receptionistID	Number	11	Unique identifier; also a foreign key referencing users.userID (1:1 subtype of users). No additional columns beyond the ID, as per design.

21. student

Table Name: student

File Name: student

File Number: 21

Primary Key: studentID

Foreign Keys: studentID (references users.userID)

File Size: 41 Bytes

Field Name	Data Type	Size	Description
studentID	Number	11	Unique identifier; also a foreign key referencing users.userID (1:1 subtype of users)
date_of_birth	Date	-	Student's date of birth
grade	Text	30	Student's current grade/level

22. director

Table Name: director

File Name: director

File Number: 22

Primary Key: directorID

Foreign Keys: directorID (references users.userID)

File Size: 11 Bytes

Field Name	Data Type	Size	Description
directorID	Number	11	Unique identifier; also a foreign key referencing users.userID (1:1 subtype of users). No additional columns currently — director is a view-only role.
